Do You Want to Know What You Swallow?

There is a growing sentiment in this country in favor of MEDICINES OF KNOWN COMPOSITION. It is but natural that one should have some interest in the composition of that which he or she is expected to swallow, whether it be food, drink or medicine.

Recognizing this growing disposition on the part of the public, and satisfied that the fullest publicity can only add to the well-earned reputation of his medicines, Dr. R. V. Pierce, of Buffalo, N. Y., has "taken time by the forelock," as it were, and is publishing broadcast a list of all the ingredients entering into his leading medicines, the "Golden Medical Discovery" the popular liver invigorator, stomach tonic, blood purifier and heart regulator; also of his "Favorite Prescription" for weak, over-worked, broken-down, nervous and invalid women.

This bold and out-spoken movement on the part of Dr. Pierce, has, by showing exactly what his well-known medicines are composed of, completely disarmed all harping critics who have heretofore unjustly attacked them. A little pamphlet has been compiled, from the standard medical authorities of all the several schools of practice, showing the strongest endorsements by leading medical writers of the several ingredients which enter into Dr. Pierce's medicines. A copy of this little book is mailed *free* to any one desiring to learn more concerning the valuable, native, medicinal plants which enter into the composition of Dr. Pierce's medicines. Address Dr. Pierce as above.

Dr. Pierce's Pleasant Pellets are tiny, sugar-coated anti-bilious granules. They regulate and invigorate Stomach, Liver and Bowels. Do not beget the "pill habit," but cure constipation. One or two each day for a laxative and regulator, three or four for an active cathartic. Once tried always in favor.

$50,000 GIVEN AWAY, in copies of The People's Common Sense Medical Adviser, a book that sold to the extent of 500,000 copies a few years ago, at $1.50 per copy. Last year we gave away $30,000 worth of these invaluable books. This year we shall give away $50,000 worth of them. Will you share in this benefit? If so, send only 21 one-cent stamps to cover cost of mailing only for book in stiff paper covers, or 31 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

CONSUMPTION.

The following is from the October number of the Bulletin of the Virginia Board of Health:

HOW TO PREVENT CONSUMPTION.

All classes of consumption are contacted from others and are not inherited. Consumption is caused by germs, which are spit up by consumptives. If all these germs could be destroyed, there would be no more cases of consumption. The clean and careful consumptive, who destroys all his sputum, is not dangerous to those with whom he lives and works. The best way to destroy the sputum is to use paper sputum cups and burn them every day. Never spit on floor or sidewalk. Sunlight and fresh air kill consumption germs, which can live a long time in a close, dark room, where they may be inhaled in the dust. See that all your rooms are bright and airy, whether there is a consumptive in the family or not. Don't move into a room, where a consumptive has lived, till it has been fumigated by the Health Department. People often contract consumption from such rooms.

HOW TO CURE CONSUMPTION.

Consumption can be cured in the early stages. If you wait until you are so that you cannot work it may be too late. Don't waste your money on patent medicines or advertised cures for consumption, but go to a doctor or a dispensary (or clinic), and carry out instructions exactly. Good food, fresh air and rest are the best cures. Keep in the sunshine as much as possible, and keep your windows open winter and summer, night and day. Fresh air, night and day, is good for you and will not give you cold or pneumonia. Don't sleep in the same bed with anyone else, and, if possible, not in the same room.

ANTI-TUBERCULOSIS LEAGUE'S FREE CLINIC FOR CONSUMTIVES, 41 QUEEN STREET, NORFOLK, Va.

Catching Cold.

Speaking recently of how easily people contract common colds in sudden changes of weather, particularly in the early fall, Health Commissioner Bosley of Baltimore said that in cold weather—that is during the winter season—75 per cent. of our living quarters are kept entirely too hot. He said that indoor temperatures should not be above 70 degrees.

"In most places I find the temperature of the rooms as high as 80 or 85 degrees," Dr. Bosley continued. "People leave this temperature and go out into the cold and invariably get sick, unless they protect themselves with heavy clothing. We live in entirely too hot rooms in this country."

Continuing, Dr. Bosley said a good and safe rule to follow would be a change of underclothing with the weather. He keeps a thermometer outside of his sleeping room in the winter time and dresses according to the weather. He finds proper underclothing better than heavy overclothing, except in extreme cold weather, when both are sometimes necessary. The secret of health is the keeping of the body in proper condition, and this can be done, among other ways, by observing the changes in the weather and being prepared for them.

The ordinary attack of cold said the doctor, is the consequence of a general cooling of the body, whereby the blood from the surface is forced upon the internal organs. The mucous membranes of the nose and bronchial passages are those most affected, becoming congested and inflamed and relieving their turgidity by copious secretions.

Want a Political Pope.

In spite of the fact that the Pope is enjoying perfect health, the matter of the possible result of the next conclave, whenever it does occur, is being discussed in Rome even among the cardinals themselves, and this with no desire to anticipate the end of or to be disrespectful to the pontiff.

The feeling of cardinals has changed greatly since August, 1903, and today there exists a tendency quite opposite to that which triumphed three years ago. In view of the Vatican experiences with France the cry this time will be not for a merely religious pope, but a political pope; not for a saint, but for a statesman.

Even the strongest opponents of three years ago of Cardinal Rampolla now favor his election. Rampolla failed in 1903 chiefly because he was vetoed by Cardinal Puzyna in the name of Austria, speaking for the entire triple alliance.

Although Pope Pius has suppressed the right of veto arrogated by certain powers, the reasons which induced the triple alliance to oppose Cardinal Rampolla still exist and the church is today less able to afford displeasing the central empire. Consequently there are rumors of an experiment with a foreign pope, in spite of the disfavor of the Italians.

In this connection the recent election of Father Wernz to be general of Jesuits is considered symptomatic. Every one prophesied that the new general would be an Italian, but finally a German was chosen.

A cold is much more easily cured when the bowels are open. Kennedy's Laxative Honey and Tar opens the bowels and drives the cold out of the system in young or old. Sold by W. F. Creighton & Co., 403 King street.

Castellane Rejects Proposition.

On the eve of the trial, October 17, of the suit for divorce brought by the Countess de Castellane against her husband, Count Boni, no compromise has been effected. The count has refused the offer made in behalf of the countess to settle a fixed income on him.

The amount is not ascertainable, but is described as "very liberal in accordance with the count's generous conduct throughout the affair." The count, however, insists on the liquidation of all his old debts, to which, it is stated, the countess's family would never agree.

In view of the failure to settle this point, it is practically certain that the count on Wednesday will seek delay, but the countess's counsel, who are ready for trial, are confident that he will not secure postponement for longer than a fortnight. If the case is postponed they will endeavor to secure a similar postponement of the creditors' case on October 24, which the count wants to have decided first. When the issue finally comes to trial the countess's lawyers expect to get a decree upon the documentary evidence which will be submitted, and thus avoid an appearance in court, but if the court is not satisfied the French procedure is to order an "inquiry," to which witnesses will be summoned.

TUES'AY EVENING, OCT. 16, 1906.

CO-EDUCATION has again proven a failure. William D. McClintock, dean of the University of Chicago, announced last week that the faculty had finally decided upon complete segregation of men and women students, and henceforth the aim would be two affiliated universities, one for women and another for men. The buildings for the women's dormitory and recitation rooms are to be entirely removed from those of the men and the students of different sexes will never meet, except occasionally on the campus. The Dean says that the university life needs to be more secluded and freer from the publicity which is now its greatest failing.

A DECISION handed down by the highest New York Supreme Court last week, in the case of a woman, who was hurt in the Staten Island automobile races in 1902, is that any person who may be injured standing beside the road watching automobile races cannot recover damages for his hurt. The court holds that because such person is a spectator he would be guilty of contributory negligence. The woman had gotten a verdict of $5,000 from two lower courts, but this decision is reversed by the Court of Appeals.

IT IS KNOWN that Midshipman Guiler, of Ohio, a member of the third class, has been placed under arrest at the Naval Academy, charged with hazing a lower class man. The report was made by a first class man, and the authorities are holding the case under advisement. This hazing comes as a surprise to some, as it was understood that hazing was at an end at the institution, but others expected another outbreak as those heretofore engaged in hazing have not been sufficiently punished.

WITH THE departure from New York for Europe of Maxim Gorky, the Russian socialist and author, and his "companion," Mme. Andreiva, it became known that during the summer the woman acted as a waitress at an Adirondack hotel. Gorky came to this country it was said to collect funds for the Russian revolution, but his mission suddenly failed when it became known that he had a wife and several children in Europe. He did no work here himself, but allowed the woman to do so. Gorky is a fraud.

MR. GROSVENOR, of Ohio, who, having been defeated for Congress, is endeavoring to keep himself before the public by advising in a magazine article the renomination of President Roosevelt for another term. He appeared at the White House yesterday with his magazine publication tucked firmly under his arm and it is strongly suspected that he wants an office.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, Oct. 16.

Representative Bowers, of Mississippi, assistant chairman of the democratic Congressional Committee, left here today hot foot for his home district in a very perturbed state of mind. He learned last night by wire that his friends had neglected to put his name on the official ballot. He has been nominated all right, and has no opposition except by the socialists. When he left, he was not quite sure whether he could arrive in time to arrange the little formality, without which his socialist opponent would have a walk-over in the election. The prayers of his fellow members on the Congressional—Committee go with him.

An impression has been created in certain circles that the recent continuance by the Supreme Court of the case of E. J. Pearcy against collector of customs Stranahan at New York was due to the desire of the administration to postpone a decision at this time. The case involves the title to the Isle of Pines. It was thought that the Cuban situation and the activity of the American resident of the Isle of Pines might have had a distinct bearing upon the postponement. The department of justice announced this morning, however, that the request for delay came from the plaintiffs. The government, it is said, is ready and anxious to try the case and is now arranging to have the plaintiffs counsel agree on a date not later than the middle of November.

When Postmaster General Cortelyou arrived at the White House to attend the cabinet meeting today, a dozen newspapers representatives were waiting to ask if concerning the rumor that he will succeed Secretary of the Treasury Shaw in that portfolio on March 4, 1907. "I haven't a word to say about it," was all the satisfaction to be gotton from Mr. Cortrlyou as he passed on into the cabinet room. All the other members of the cabinet present in blissful ignorance of cabinet changes, so they said, Secretary Shaw, campaigning were the only absentees at the cabinet meeting today.

Secretary Root and Postmaster General Cortelyou were "kept in" after Cabinet meeting today to go over with the President the political situation in New York State. Secretary Root is billed for the star speech of the campaign in Carnegie Hall next week.

President Roosevelt has thrown into the political arena a proposition that will convulse Congress and engross the attention of the entire country. It is the inheritance tax referred to in his Harrisburg speech and which, it is said, he will elaborate upon in his message to Congress and urge its enactment into law.

The reason that Secretary Taft returned directly to Washington, via Hampton Roads, instead of carrying out his intention of visiting Key West for the purpose of examining the military reservation there is to be found in the quarantine laws of Florida. There is yellow fever in Havana and Secretary Taft, coming from that city, would not have been allowed to land at any Florida port without first undergoing a protracted erm of quarantine. Consequently he had to abandon his plans and come directly north where the quarantine laws are not so strict. Nevertheless he will not be able to altogether escape the scrutiny of the health officers. Under the regulations every person who comes to this county from a yellow fever infected port must subject himself to the scrutiny for a period of five days dating from the time he left that port. Secretary Taft, his wife and Mr. and Mrs. Bacon will have to observe this rule. They left Havana on Saturday, and are expected to arrive at Hampton Roads this afternoon. That is only three days. Tomorrow and Thursday the officials of the Marine Hospital Service will expect each of them to report daily the condition of their health.

Four of the most powerful cruisers of the American navy today joined the Asiatic fleet thus making it more formidable than it has ever been before. The vessels are the West Virginia, Colorado, Pennsylvania and Marvland.

The extraordinary demands upon the Treasury for subsidiary silver coins has forced the directors of the Mint to radically change his methods of purchasing silver bullion. Bids will now be received on three days a week instead of one. The average weekly purchase heretofore has been 200,000 ounces. It is hoped by the official that the purchase of double this quantity weekly will relieve the situation. It has been pointed out that if Congress had permitted the Treasury Department to remint abraised silver dollars as it desired, the present difficulties would not have to be met and the present high price demanded for silver have to be paid. London fixes the price of silver. It very frequently happens that the Treasury pays a higher price for silver bullion than it is quoted for on the New York stock exchange. This was the case yesterday when 600,000 ounces cost 70.13 cents per ounce.

Mabel Callahan has sued Harry F. Callahan, a clerk in the War Department, for divorce. She says that after cursing her, Callahan said "that his salary of $1,000 a year was only sufficient for his own support."

The Hook Worm.

A disease, long known to have existed in Egypt, in the Orient, and in Porto Rico, in the Occident, and in other austral climes, has just been discovered to exist in Virginia, where heretofore it was unsuspected. This disease, which has all the ontward forms and appearances and signs of malaria, for which it has often been diagnosed, is attributable to a species of earthworm known, in lay language, as the "hookworm".

The hookworm is a species of earthworm which finds its habitat in damp earth, where it grows and increases its kind with unwonted vigor. The tidewater section of Virginia is more peculiarly adapted to it than any other portion of this State, and here it is remarked that the disease is prevalent to an extent that that is more than surprising. This worm, in several ways, finds its way into the human intestinal tract, where, by means of a certain proboscis-like formation resembling a hook at its head, it clings to the mucous membrane and sucks the blood which traverses along the many tiny veins lining the intestinal walls. The person so afflicted soon becomes anemic; his growth, if he be young, is stunted; the physical and mental faculties are dulled, and the victim drags out a weary existence which if the disease be not cured, soon ends in death

Cuba to Pay the Bill.

Quartermaster General Humphrey has sent instructions to the chief quartermaster at Havana to discharge all transports in southern waters upon their return to their charter points, the only exceptions being the animal ships Andes and Tasrholm.

The cost of the transport service will be $225,000, which must be paid from Cuban revenues.

This is only a small part of the charge which the Cubans must meet as a result of their rebellion involving intervention and the use of United States troops, for the bill also will include the cost of transporting the troops from interior points to the Atlantic coast ports by rail (in some cases they were carried across the continent) and all of the animals, wagons, tents and other supplies which were purchased or taken from the quartermaster's depots for use in Cuba.

The medical department and the commissary department have been put to considerable extra expense by intervention, and it would not be surprising if the total would reach a million dollars, all to be defrayed frem the Cuban treasury.

Gompers on the Stump.

Samuel Gompers, president of the American Federation of Labor, has started on his second stumping tour and will continue in the campaign until election day. His objective point is the Danville district in Illinois, where he will fight against the re-election of Speaker Cannon.

So confident is Mr. Gompers of defeating Speaker Cannon and electing the labor candidate, Taylor, that he intends to remain in Illinois until November. He has made every attempt to induce John Mitchell to join him in the stumping tour in Speaker Cannon's district, but up to this time Mr. Mitchell has refused. Mr. Gompers believes, however, that if he can induce the democrats to support Taylor then Mitchell will have to show his hand and come into the campaign. Mr. Gompers's determination to speak in Mr. Cannon's district has not worried the Speaker, nor has it caused him to curtail his stumping tour in the East. Speaker Cannon is so confident of his re-election that he will not make any speeches in his district until the very end of the campaign.

Wedding Bath Party Quickly Abandoned

The Turkish bath party of Columbus, Ohio, planned as a preliminary to the wedding of Robert Lindenberg and Mary Adell Woodworth, invitations for which had been issued, was declared off Sunday night. All invitations will be withdrawn and the guests at the wedding will be compelled to rejuvenate their travel-stained bodies either at home or at private "bawths" at a hotel. Lindenberg could not stand for the notoriety. Eastern newspapers, which wanted to run page articles about him and his splatter party made his hair stand on end.

In the lots at Broad and Catharine streets, Philadelphia, under the windows of two churches and a family hotel, a bare knuckle fight for a $50 purse was pulled off Sunday afternoon. Sometime after dark yesterday evening some one threw nearly a pound of paris green into the drinking-water well on the estate of Mr. E. Stanley Gray, at Clearfields, near Catonsville, Md., and had it not been for the gardener who accidently discovered the poison in a glass of water, 11 persons would have been in grave danger and some of them might have died as a result of partaking of the poisoned water.

In a mountain camp, seven miles from Arboles, Colo., twelve children, most of them waifs, are said to have been starved to death, as a result of the teachings of the Brotherhood of Light, of which C. G. Rose, a long-haired eccentric, is the ostensible head. The children are given only vegetable diet and compelled to work at onerous tasks. None of the children are more than ten years old and they look like little old men and women. All the boys had long hair, and none of them were clean. They sleep in tents. The Brotherhood was founded some years ago in New York by Franklyn P. White. For a time it maintained a home in north Denver, where there were several scandals over the death of infants. Then it removed the home to Arboles.

John Armstrong Chanler announces that he has in press, and will begin to distribute the latter part of this week, a book in which he attacks prominent New York lawyers in connection with his incarceration for insanity. Chanler is a member of a very old and wealthy New York family and a descendant of the original Astors. He has about a million dollars in his own right, but a number of years ago was incarcerated in the Bloomingdale asylum, in New York, as a lunatic. After four years' confinement, he escaped and disappeared, finally reappearing suddenly in Albemarle county, where he had married Amelie Rives, the author of the "Quick and the Dead." From her he was afterward divorced, and she is now the Princess Troubetskey.

The Stuart picture will be issued on October 21 and that of Mr. Emery on the following Sunday. As the editions of the Sunday North American for these two dates will be limited and the demand unusually large, it will be necessary to order the paper in advance to insure delivery.

Mrs. Amanda Boyce, wife of David E. Boyce, was found dead on the floor of the kitchen in her home, at Bliss, Frederick county, late Saturday evening. Three men were torn to pieces by a premature explosion of dynamite yesterday at Fringer Siding, Botetourt county, near Roanoke A number of other employes were seriously, though not fatally injured. The three men were employed at the rock quarry of the Roanoke Stone and Lime Company. They were thawing a big lot of dynamite before a fire built on the ground, and it is supposed one of them kicked a stick of the explosive. Their bodies were blown to pieces, and bits of burned flesh and blackened bones were found several hundred yards distant. A large hole was torn in the ground where the explosion took place.

Dr. Daniel Janney, for many years one of the leading physicians of Frederick county and a prominent county politician, died yesterday morning at Welltown, five miles from Winchester, aged 79 years. Mack Janney) and one daughter (Mrs. John M. Silver, of Winchester), two brothers (Eli Janney, of Alexandria, the inventor of the Janney car coupler, and Dr. Edward Janney, of Baltimore), and one sister (Mrs. Gregg, of Middleburg.)

The Weightman Will.

The fight between two women over the distribution of the $60,000,000 estate of the late Wm. Weightman, the chemist, who was Philadelphia's wealthiest man, was abruptly halted in Philadelphia yesterday by the production of a small white piece of notepaper that had turned yellow with age. What the piece of paper contains was not made public, and the less than a dozen persons who have seen it have pledged themselves never to reveal its contents. The halt in the proceedings was made at the suggestion of counsel for Mrs. James Wister, who is acting as guardian for her daughter Martha, the contestant, and the sudden turn in the case has made the beneficiaries of the will jubilant. They freely predict that the case has been ended forever.

The morning session was taken up with the examination of three witnesses, one of whom was Mr. Walker, who plainly showed her bitterness against Mrs. Wister.

William Weightman, the millionaire chemist, left an estate valued at $60,000,000. He willed his estate to his daughter, Mrs. Anne Weightman Walker, making her one of the richest women in the world. Contest was begun by Mrs. Jones Wister, a daughter-in-law, a society woman and a beauty. It has been said the millionaire had proposed to his daughter-in-law after the death of her first husband.

It is thought the case will never again come up. One of the witnesses who had attested the will was forced to admit that he had received $100,000 from Mrs. Walker.

There are many surmises as to the nature of the contents of the paper, but none of them can be confirmed. When Mr. Johnson, counsel for Mrs. Walker, was asked what it contained he said:

"I will not tell; it is beyond human possibility for that paper to be made public."

Richard W. Meirs, son-in-law of Mrs. Wister and nephew of Mrs. Walker, who is siding with his aunt, said he hoped it would never see the light of day. "I would rather have my tongue cut out than reveal what was in that paper," he said. "Up to today, when it was privately shown in court, only four persons in the world had seen it. The paper is in the possession of my aunt's counsel, and its contents will not be made public unless it is done by the other side, and I am sure they will not do it."

Counsel on both sides maintain the strictest secrecy regarding its contents. From some of the statements made in answer to questions, it would appear that there is a scandal lurking in the innocent-looking scrap.

Today's Telegraphic News

Mrs. Davis Sinking.

New York, Oct. 16.—Lying unconscious, kept alive only by the use of oxygen, Mrs. Jefferson Davis, widow of the President of the Southern Confederacy, is sinking rapidly today and her death is expected momentarily.

The sinking spell began last night. Previous to this Mrs. Davis had shown wonderful vitality, and her physicians were hopeful she could rally. As she lapsed into unconsciousness last night they realized that the end could not be far off, and distant members of Mrs. Davis's family were sent for.

Mrs. Davis has been suffering from pneumonia since a week ago last Saturday when she returned from a vacation trip to the Adirondacks to the Majestic Hotel where she is now. With her are her daughter, Mrs. J. Addison Hayes, of Colorado, and Mr. Hayes; Dr. Webb, husband of one of the afflicted lady's grand children, and Mrs. Charles E. Bateson, a niece. Rev. N. N. Siegle, of St. Stephen's Episcopal Church, has been at the dying woman's bedside all day.

Dr. Webb and Dr. Robt. H. Wyle, who are attending Mrs. Davis, stated today they expected the end at any moment.

Registration in New York.

New York, Oct. 16 —Registration for the coming election closed in New York city at 10 o'clock last night, and in the figures the political forecasters found material for some careful comparisons. The total registration as announced is 660,210. In 1905 it was 643,505, and in 1904, 88,352. This means that practically 17,000 more voters registered this year than for the last year's municipal contest, but that there was a falling off of 28,000 in round numbers from the registration for the Presidential campaign of 1905. The increase of 17,000 is regarded as only normal, and the forecasters figure that at least 50,000 men entitled to vote failed to register. With the registration of 660,000, the probable vote is estimated at 620,000. The prophets are now figuring out how the vote will be distributed. The republicans declare that the falling off was in democratic districts. They argue from this that Hearst will not poll the full democratic vote. Supporters of Hearst, on the other hand, profess to be more than satisfied with the registration. They say the increase of 17,000 over last year's registration indicates that the people are even more interested than they were in the last municipal campaign. They express confidence that Hearst will poll thousands of votes more than he got last year.

Sentenced to Life Imprisonment.

Albany, Oct. 16.—Justice Fitts sentenced Hammond, the wife murderer, to imprisonment for life. Hammond and his wife had been on a protracted spree. Finally they quarreled and Hammond choked her to death. Later Hammond placed the corpse of his wife on a bed and slept beside it all night. The following day he drew his wife's legs over her shoulders and tied them with a stout cord. He then jammed the body in a trunk around which his sprinkled choride of lime to kill the stench he know would follow decomposition Bolting and locking all windows he made his escape. Dying his hair a yellow brown, he crossed the border at Rouse's Point and reached Montreal, where he left almost immediately for Chicago, thence to Denver, Portland, Ore., and Butte, Mont From Butte he went to San Francisco where he took a ship for Dawson City, Alaska. Here, however, his conscience troubled him so he decided to return to Albany and gave himself up, reaching here in May last. Mrs. Hammond was 54 years old; Hammond was 20. During the trial it was shown that Mrs. Hammond had taught Hammon the life of debauchery and drunkenness that he led. After a public liaison of months, the then Mrs. Cramp finally prevailed on Hammond to marry her during a drunken carousal.

Terrible Railway Accident.

St. Petersburg, Oct. 16.—A terrible railway accident accompanied by heavy loss of life and the injury of scores of other persons occurred late yesterday at Oka. Ten bodies have already been taken from the wreckage and thirty persons suffering from severe injuries were dug out. No attempt has been made to enumerate those slightly hurt. A head-on collision between a passenger train and a freight train caused the disaster. The passenger train was almost demolished. Practically all the passengers were buried under the wreckage. Fire broke out in the wreckage and several fatalities were directly due to the flames. It is believed that several bodies were burned up.

Few details of the disaster have been received here, but the dispatches all state it is feared the lives of dead and injured so far reported does not in any way represent the seriousness of the accident.

Engineer Crushed to Death.

Chicago, Oct. 16.—One man was killed, several passengers were seriously injured and scores of others had narrow escapes from death today when a fast passenger train on the Chicago and Eastern Illinois Railway jumped the track after striking a defective rail near Crete, Ill. John Wickley, engineer on the train, was crushed to death under his overturned engine. The fireman of the passenger train, Hans Heistell, jumped from the engine a moment before the accident occurred. He was injured internally and suffered a probable fatal fracture of the skull.

Wants $5,000 Damages.

Worcester, Mass., Oct. 16.—If Ted Jederman, a young man of this city, wins a suit which he brought today against Wm. A. Bradley, the theatrical manager, he will probably conclude that "Suping" at 50 cents a performance is not such bad pay after all. Some weeks ago he appeared as one of the soldiers, peasants, shepherds, etc. in "The Shepherd King." His role required that he color his legs and arms with a preparation called bolonania. In his complaint today Tederman alleges that the bolonania damaged his cuticle to the extent of $5,000.

New York Stock Market.

New York, Oct. 16 —Trading on the stock market all through the first hour was extremely quiet, but the tone was strong and the dullness came more from a lot of supply than anything else. At the close of the first hour Reading, which showed strength in the earlier trading, reacted and lost its early gain. London was a buyer of Anaconda and Union Pacific, taking in all about 15,000 shares. Government bonds exchanged; other bonds firm.

Revolution Probable.

Port of Spain, Trinidad, Oct. 16.—A revolution in Venezuela will follow the death of President Castro, which it is now is only a question of a few days. This is the report which comes from Caracas with the news of Castro's severe illness.

A sensation has been caused by the announcement of Castro's expected early death. Recent reports that he was very ill have been denied and in the last few days the newspapers have printed accounts of acts of clemency granted by the president, together with telegrams congratulating him on his health.

It is understood now that these stories have been published for the single purpose of concealing the real facts from the people. Castro, it is reported, is so ill he can neither talk or move. In the western states of Venezuela revolutionists are said to be only waiting the word that he is dead to start an uprising against the government. It is expected that the revolt will spread to almost every province, and exciting times in the Venezuelan republic in the near future are expected.

Conditions in Cuba.

Havana, Oct. 16.—Another disappointment for the liberals who are so anxious to display their patriotism by serving their country in well paying offices was contained in an announcement made today by Governor Magoon to the effect that he will take no action at present on a petition presented by leading liberals in Pinar del Rio province demanding the removal of Governor Sobrada.

In stating that he could not act on the petition for Sobrada's removal Governor Magoon took occasion to praise the attitude assumed by liberal leaders when they boldly announced that they were not seeking offices for themselves.

Governor Magoon today denied that there is the least foundation in truth for the rumors that he intends to appoint American army officers to positions in his cabinet, instead of selecting Cubans.

The reports received in the city from every section of the island telling of peaceful conditions are gradually restoring confidence in the business world and trade in all lines is picking up.

Want the Pope to Preside.

Rome, Oct. 16—Great pressure is being brought to bear upon Pope Pius X. by a strong party in the Vatican to induce him to preside at the ceremony to be held in December in connection with the removal of the remains of the late Pope Leo XIII. from St. Peter's Church to the Sangievanni Lateran Church and to appear publicly in the streets of Rome on this occasion. Aside from the violation of all precedent in leaving the Vatican, such action on the part of the pontiff if he consents to participate in the ceremonies, will be of far reaching political significance. It will be interpreted as an act of conciliation toward the Italian government with which the Vatican has no relations. Eventually this might lead to an abjustment of differences between the Vatican and the government.

The Thaw Case.

New York, Oct. 16.—District Attorney Jerome today, in opposing a motion made by counsel for Harry K. Thaw, slayer of Stanford White, seeking a court order to restrain the District Attorney's office from examining further withnesses in the case, intimated that the State is seeking to bring in another person as a co-defendant with the young man. No mention was made in any way of who this co-defendant might be, but court attaches had little difficulty in figuring out that Mr. Jerone meant Evelyn Nesbit Thaw, wife of the prisoner, who was the real causes of White's killing. The decision will not be rendered until the technicalities in connection with the transfer have been complied with.

Forgives Slayer He Wronged.

Vidalia, Ga., Oct. 16—William T. Gilpin, a lumber inspector, Saturday night shot W. W. McDonald, former Mayor, vice president of the National Bank,, and a prominent lawyer of Douglass, at Rimes Hotel. Gilpin learned that McDonald had arranged to meet Mrs. Gilpin at the hotel, He secreted himself in the room and shot McDonald when the latter and Mrs Gilpin entered. McDonald survived the shooting twelve hours, and his dying statement, it is said, was coupled with a request that he did not wish Gilpin prosecuted. Gilpin and his wife surrendered to the officers and both have been taken to jail to await a commitment trial.

Hughes Breaking The Record.

Sag Harbor, N. Y., Oct. 16.—All records for campaign speaking have been broken by Charles E. Hughes, republican nominee for governor, and today another record may be hung up. Making fifteen speeches yesterday, thirteen of which were delivered from the car platform, Mr. Hughes spoke 35,000 words. The stenographers transcribing the notes found the candidate spoke on the average 2,500 words in each address. With ten speeches to be made today Mr. Hughes probably will create a new record. President Roosevelt when campaigning for vice-president often made fifteen speeches in a day in his whirlwind tour, but rarely averaged more than 1,200 words to a speech.

Midshipman Adjudged Guilty.

Annapolis, Oct. 16—Robert P. Guiler, of Calais, O., a midshipman of the third class, has been adjudged guilty of the offence of hazing under the new anti-hazing law and has been given 200 demerits. Guiler's offense was a mild one. He entered the room of fourth classman Godfred C. Chevalier, of Medford, Mass., without authority and the charge was that he humiliated and embarrassed the new middy by commenting upon the length of his name and assigning some nickname by which he was to be known in the future. Guiler's punishment will probably be the cause of his resigning the service.

Rescuers have succeeded in bringing to the surface all the survivors of the explosion yesterday in the Wignate Colliery at Durham, England. In the neighborhood of 500 miners were saved. The dead number 25.

Hung in Mid Air.

New York, Oct. 16.—Caught on the large hook which had held a scaffold on which he was standing James Mulvey, a painter, was left dangling in the air when the scaffold fell. He continued in his precarious position until and extension hook and ladder could be called to the scene and a fireman picked him off his resting place. Mulvey was painting the front of a house at 104 West Fifty-seventh street when the scaffold fell and his trousers caught on the hook, three stories above ground.

Princes Under Arrest.

Berlin, Oct. 16 —For advocating the revival of the ancient kingdom of Poland and attending a meeting devoted to denouncing the German government, two princes of the ancient Polish dynasty are under arrest at Ostrowo in the province of Posen. They are Prince George Radziwill, head of the house of Radziwill, and his younger brother, Prince Stanislanus

Prince George presided at a meeting of Polish nationalists where the speakers denounced the German government and advocated a restoration of the Polish government. Police got wind of the meeting and broke up the gathering. Bail has been furnished for the two Princes, and they will be at liberty until arraigned for trirl.

Big Fire.

Boonton, N. J., Oct. 16.—A fire early this morning destroyed the Boonton Iron and Steel Company's mills, Boonton's largest manufacturing plant, and the Lincoln Iron Works, which manufactured bridge iron used for building purposes and fancy structural iron work. The latter was totally destroyed. Four hundred men are thrown out of employment and the loss of wages will amount to $5,000 a week. The loss to the machinery is heavy.

Trades Dress Suit for Barrel.

Humorous, indeed, at least to others, was the situation in which James Edward Royden, a young society man, found himself early yesterday in Richmond when he was forced to take refuge in a garbage barrel to save himself from being made the laughing stock of the social set. Royden, who had attended an after-theatre supper, was resting quietly in a convenient alley, when a negro, bent on plunder, divested him of his dress suit, leaving him a few old rags in their stead. Royden's awakening, therefore, was like unto that of Rip Van Winkle. His swallow tail and nether garments had been replaced by clothing hardly suitable for street appearance, and he was realizing something of the experience of poor Rip when early passers-by caused him to jump into a barrel. The day was yet young, however, and Royden succeeded in getting word to friends, who supplied him with fresh clothing.

Cortelyou to Succeed Shaw?

In the more knowing financial circles in New York it is the tip that Postmaster General Cortelyou is already slated to succeed Secretary Shaw when he retires from the Treasury portfolio. The Postmaster General was in New York during last week, and his transfer to the Treasury Department at an early date was the subject of discussion among his more intimate friends. It is the conviction of those who should know that the President has determined upon the appointment, and is now casting about for a new Postmaster General. Secretary Shaw will probably remain in the Cabinet until the end of the Fifty-ninth Congress, the 4th of March next. Attorney General Moody will go out in January next.

President Castro, of Venezuela, is reported to be dying at Caracas, and the news of his death will be the signal for a revolution.

Advertising Virginia.

For the purpose of interesting Alexandria people in a plan for the exploitation of Virginia and advertising her agriculture, industrial and commercial interests by the co-operative system, Mr. Douglas Kelly, representing Albert Frank & Company, general advertising agents, of New York, is in the city.

It is their purpose to organize a movement for a "Greater Virginia" in this State similar to the movements which they have successfully launched in many of the western and northwestern States, and Mr. Kelly has been sent to Virginia with this end in view.

Mr. Kelly says he will present his plan to the Chamber of Commerce, Board of Trade, the real estate men and to a number of public-spirited citizens.

It is proposed by Frank & Company to raise a fund of not less than $10,000 by subscription from these individuals and business organizations, and with this money contract for advertising space in newspapers and periodicals known positively by Frank & Company to reach just the element of people possible to interest in Virginia and her resources.

By this advertising, it is declared by Frank & Company and their agent in this city, that a measure of the immigration which has for almost 50 years been pouring into the West, would be turned toward the South.

Circuit Court for the County.

[Judge C. E. Nicol presiding.]

In addition to the indictments found against Joseph Thomas alias John Wright, colored, the grand jury in the Circuit Court for the county yesterday also returned true bills against Adam Glenn and Adelaide Glenn for robbery, and John Cisco for assault with intent to murder an infant.

In the case against John Green, charged with assault with intent to kill, the grand jury failed to return an indictment, and the prisoner was discharged.

The cases of the Commonwealth against Henry Jones, charged with larceny, and Frank Twyman and Malinda Rogers, charged with perjury, were abandoned, with the consent of the State's attorney.

The case of G. H. Harris, for violating the law requiring a tax on automobiles, was also abandoned, the ordinance having been passed by the town council of Falls Church and the arrest having been made before the State law authorizing the ordinance became effective.

The court approved the application of the Capital Squab Company, of Washington, for articles of incorporation, with a capital stock of $50,000. The incorporators are Clarence B. Story, president; Charles B. McKee, secretary, and John B. Smallwood, treasurer, and the object of the company is to raise and market squabs, ginsing, bees, &c.

The wills of Walter W. Burdette and Thomas N. Conroy, both of Washington, were admitted to probate.

The writs of attachment of Dyer and the Birch and Klepts Company against Dougherty were quashed at the instance of James R. Caton and R. Walton Moore, which lets the other creditors of Dougherty in on an equal footing. Dougherty was the proprietor of the dining-room at Luna Park during the past season.

A case which involves the constitutionality of the law for the separation of white and colored persons on steam and electric cars in Virginia was set for hearing on Saturday next. It is understood the complainant, Barbara E Pope, is backed by an organization of colored people, having for its object a decision of the Supreme Court of the United States. The woman, who claims to be a clerk in the Interstate Commerce Commission, was ejected from a Southern Railway train at Falls Church several weeks ago and was fined $10 by Mayor Hawxhurst, of Falls Church, for violating the railroad law. R. Walton Moore, Attorney for the Falls Church and Old Dominion Company, and James R. Caton, attorney for the Washington, Alexandria and Mount Vernon Railroad Company, have asked the court for permission to be heard.

Among the other cases fo come up at this term will be that of Blake vs. the Washington, Alexandria and Mount Vernon Electric Railway Company, a suit to recover $25,000 damages for alleged personal injuries received in on accident on defendant company's cars, This case will be heard on October 23.

Today's proceedings—Com. vs. Chester Branch, colored, indicted for assault; prisoner pleaded guilty and was sentenced to serve sixty days in jail.

Com. vs. ——— Wooster, indicted for an assault on ——— Carpenter in Del Ray; case in progress.

C. & O. Train Wrecked.

Westbound Chesapeake and Ohio vestibuled train No. 5, known as the Old Dominion express, from Washington and Norfolk to Cincinnati, which passed through this city about 2:30 o'clock yesterday afternoon, was wrecked three hours and a half later seven miles west of Charlottesville, near Ivy Depot, killing one man and injuring seven others.

The train consisted of ten coaches and drawn by two engines. It left Charlottesville twenty minutes behind schedule time. While going down grade at an estimated speed of more than sixty miles an hour both engines jumped the track, carrying with them the express, mail, and combination cars and two day coaches.

The front engine rolled down a six-foot embankment into a marsh. Firemen Carper either jumped or was thrown through the cab window. A half hour later he was found dead in a small creek with his neck broken.

Engineer Johnson was also thrown from his engine, but when found had crawled back to his place at the throttle.

Engineer Jones and Fireman Campbell, of the second engine, was thrown violently to the ground, and, it is believed, escaped serious injury.

The express car next to the engine was crushed, one side being entirely "swiped" off by the mail car, and the remainder tossed twenty-five feet into the marsh.

None of the passengers was seriously hurt, but great alarm was created in the dining car, as many passengers were having the evening meal when the crash came. All were thrown from their seats, the chinaware crashing on top of them Hysteria attacked several of the women, and their screams could be heard above the escaping steam.

A wreck train carrying physicians proceeded to the scene, and the work of clearing the track was prosecuted as rapidly as possible.

Divorce Suits.

Nonsupport and desertion were charged in the petition for maintenance filed in Washington yesterday by Lottie O. Tasker against Henry C. Tasker. They were married in Manassas, in April, 1897, and lived together until four months ago, when, it is asserted, Tasker left his wife.

Emil C. Burke yesterday petitioned the District Supreme Court for an absolute divorce from Thomas F. Burke. They were married at Ballston, in February, 1900. She asks that her maiden name —Emil C. Johnson—be restored and that she be awarded alimony.

The bell buoy marking the upper end of the Kettle Bottom shoals in the lower Potomac river, which was out of order for several weeks, has been repaired, the light house service authorities having replaced the broken bell last week with a new one.

Captain Assaulted.

Four colored stokers on the steamer Newport News mutinied at Norfolk last night because their demand for an increase in their pay was not immediately granted, and one of them, William Boone, made a desperate effort to assault Capt. Cason, of the steamer. The negroes presented their demand a few minutes before the steamer was due to start for Washington, and they were informed that there was no one at that end of the line authorized to grant their petition. The negroes became mutinous and the police was summoned, the mutineers in the meanwhile being confined in a warehouse. When a patrol wagon load of policesman arrived the negroes consented to fire the steamer to Washington, provided they would not be arrested, and this was agreed to by the officials of the company at Norfolk. Boone, who attacked Capt. Cason, had, however, in meantime escaped and is now at large.

The Newport News arrived at this port at 8:35 this morning, about two hour late. Captain Cason had no trouble with the firemen after the steamer left Norfolk.

Firemen on the Norfolk steamers receive $45 a month and board. They are on duty six hours and off the same period.

The Robbins Shows.

If there are any readers who have not heard of that prince of arenic managers, Frank A. Robbins, all Greater New York has, and sends him forth to tour the country at large with its best wishes for his success and the strongest words of praise for the great incorporated circus, menagerie and hippodrome organized under his name and run under his personal direction which will exhibit on the fair grounds on Saturday next. Everybody is already agog to see Alpha and Omega, those mid-air wizards of the bike, in their searsome precipitous flight down to and across a death trap, in the shape of a yawning fifty-foot gap across which they supernaturally soar awheel. Equally extraordinary in its way is the colossal animal act, introducing at the same time in one arena performing elephants, zebras, camels, water buffalo, llamas, dogs, goats, horses, ponies, dromedaries, monkeys, mules, donkeys, bears, sacred cattle and other highly educated wild and domestic beasts. The new heroic and historic pageant, "The Tribunal of Nations," serves to introduce in royal pomp and splendor living counterparts of Napoleon, Frederick the Great, Julius Cæsar, and other famous rulers of ancient and modern times.

W. C. T. U.

The special committee of the W. C. T. U., to care for the Children's Home, will hold a meeting at the home on Wednesday at four o'clock to plan for the winter's work. All persons interested in helping little children are requested to be present at that meeting. There are now nineteen Alexandria children in the home. Phillips Brooks has said: "He who helps a child helps humanity with a distinctness, with an immediateness, which no other help, given to human creatures in any other stage of their life, can possibly give again."

Death of Mr. Atkinson.

Mr. Griffith Atkinson died yesterday morning at his home, 211 east North avenue, Baltimore, of catarrh of the stomach. Mr. Atkinson was a son of the late Thomas C. Atkinson, of this city, and lived here for a number of years. Later he moved to Baltimore and was connected with the First National Bank of that city for many years. More recently he was employed by the United Railway Company. He is survived by a widow, who was a Miss Irving, of this city. The interment will be in Alexandria tomorrow evening.

Sales in the County.

Mr. Samuel H. Lunt, auctioneer, yesterday afternoon sold at public sale to Mrs. Emma P. Hume lots 200 and 204 with a three story frame house in St. Elmo, for $2,150.

Capt. R. F. Knox was to have sold property in Del Ray and other portions of the county yesterday afternoon, but the sales were postponed.

Union Street.

Members of the committee on streets of the City Council with the City Engineer, Southern Railway officials and a number of merchants who transact business on Union street met on that thoroughfare this morning for the purpose of determining what course should be pursued in order to place the street in proper condition for traffic.

Police Court.

There were no cases for trial in the Police Court this morning. No strangers appeared for lodging last night, and the usual crowd of would-be spectators of the proceedings of the court were conspicious by their absence this morning. The warning delivered by Justice Caton yesterday seems to have brought about the desired effect.

Machinists' Strike.

Orders have been issued by Jas. O'Connell, president of the International Association of Machinists, for a meeting of committees from each of the lodges at Southern Railway points, to be held in Washington tomorrow. The object of this meeting is a settlement of the strike now existing in the machine shops of the Southern Railway.

Paid for the Engine.

The City Auditor today drew his warrant for $3,500 in favor of the La France Company, of Seneca Falls, N. Y., in payment for the new fire engine just purchased for the Columbia company. The old Hydraulion engine which was taken in part payment has been shipped to Seneca Falls.

Grumbling.

Grumbling is a potent cause of ill health. It keeps the sensitive nerves constantly vibrating with discordant emotions and not only hurts the grumbler, but every one who hears it. It really prepares the system of the grumbler for an attack of any malady that happens to be prevalent.

Slight Mistake.

"Walter, what does this mean? Twenty-five francs for two hard boiled eggs?"

"Very sorry, sir. Slight mistake, sir. I've given you the bill intended for the American at the next table."—Pele Mele.

An Air Brush.

Dottie was asked, "What is a fan."

After a moment's thought Dot replied, "A fan is a thing to brush warm air away with."

But human bodies are sic fools, for a' their colleges and schools, that when nae real ills perplex them they make enow themselves to vex them.—Burns.

A Narrow Escape.

The company had assembled in the church, but the bridegroom was nowhere to be found. Finally a messenger announced that the young man had been run over and killed while on his way to the church.

"And just think," she said a month afterward to a friend, "what a narrow escape I had from becoming a widow!"

A Prank of Memory.

Why have we memory sufficient to retain the minutest circumstances that have happened to us and yet not enough to remember how often we have related them to the same person?—La Rochefoucauld.

A Wonder.

"Crime worked a miracle with that dumb convict."

"How so?"

"He was sent here for uttering forged notes."—Baltimore American.

Common sense is the average sensibility and intelligence of men undisturbed by individual peculiarities.—W. R. Alger.

An Inch or So Below.

"It's funny," began the long winded bore, "but nobody ever seems glad to see me."

"Well, and have you never found out the cause of your unpopularity?"

"No, I can't discover it."

"That's strange, because it's right under your very nose."—Philadelphia Press.

A Contingency.

"Haven't I a right to do as I like with my money?" inquired the multimillionaire.

"You have," answered the sardonic person, "if your lawyer is smart enough to draw up a will that can't be contested."—Washington Star.

Well Supplied.

Singleton—I suppose your wife has a lot of will power. Wedderly—Yes, but she has a lot more won't power.—Chicago News.

An angry man is again angry with himself when he returns to reason.—Publius Syrus.

True and tried friends of the family—De Witt's Little Early Risers. Best for results and best to take. Dependable little pills They do not gripe or sicken. Sold by W. F. Creighton & Co., 401 King street.

Devil's Island Torture.

is no worse than the terrible case of Piles that afflicted me 10 years. Then I was advised to apply Bucklen's Arnica salve, and less than a box permanently cured me, writes L. S. Napier, of Rugles, Ky. Heals all wounds, Burns and Sores like magic. 25c at E. S. Leadbeater & Sons, Druggists.

Shake off the grip of your old enemy, Nasal Catarrh, by using Ely's Cream Balm. Then will all the swelling and soreness be driven out of the tender, inflamed membrances. The fits of sneezing will cease and the discharge, as offensive to others as to yourself, will be cured when the causes that produce it are removed. Cleanliness, comfort and health renewed by the use of Cream Balm. Sold by all druggists for 50 cents, or mailed by Ely Bros., 56 Warren street, New York.

JEWELRY.

Going Housekeeping?

If so, you can hardly get along without spoons, knives and forks. The silver-plated are without a doubt the most economical in the end. They wear longer, look better and cost very little more than the ordinary kinds. We can even supply silver-plated knives with steel blades.

Your sideboard is hardly complete without a silver set. Silver cake and fruit baskets should also be placed there.

A candelabra with will brighten the table considerably. After the spread has been cleared off a silver fora dish should be placed on the table.

The necessary things in cut-glass are the decanter, the berry bowl and the celery dish. In a great many homes the ice cream is served on cut-glass plates.

On your dresser place a traveling alarm clock and a sterling silver or silver-plated toilet set, also a hat and clothes brush.

You will find plenty use of a number of small silver-plated trays. One has always so many trinkets to take care of.

There should be a jewel case on the dresser, if only for appearance sake. Over night it is a good place to keep the watch and Z—K Gold Chain.
